

TUBE SPINNERS

TUBE CLEANING NOZZLES

Jetstream Tube Spinners have been a staple in customers' tool boxes for over 15 years. Featuring a specially coated shaft and hardened sleeve with two rotating jets, Tube Spinner nozzles thoroughly clean small tube walls.

DURABILITY:

- Stainless steel body and sleeve
- Pressures in 15,000 psi (1034 bar) or 20,000 psi (1378 bar)

RELIABILITY:

- Innovative, debris exclusion* sleeve design for maximum reliability and reduced maintenance
- Expect over 80 hours of tube cleaning performance

SERVICEABILITY:

- Wrench flats added for ease of attachment and detachment
- Extra sleeves available for multiple flows with use of one body

*Patent Pending

INLET CONNECTIONS AVAILABLE:

15K NPT:

1/16", 1/8", 1/4", 3/8", 1/2"
(All have two orifice size sleeves; 3/8" and 1/2" have two additional large flow sleeves each.)

15K METRIC:

1/8" BSPP, 1/4" BSPP, M7
(All have two orifice size sleeves)

20K MP RH and LH:

1/4", 3/8", 9/16"
(Only 9/16" has two orifice size sleeves available.)

TUBE CLEANING NOZZLES

15,000 PSI (1034 bar)

- Recessed orifices for protection from surface abrasion or damage by wrenches
- Heat-treated stainless steel
- Multiple sizes, standard and custom patterns with flows ranging from 3.3 gpm (12.4 lpm) to 36.2 gpm (134.0 lpm)
- Nozzle Series available: FP, FPC, E, EX, FPT, FM, FB

THRUSTER NOZZLES

15,000 PSI (1034 bar)

- Used to provide thrust for pulling through tubes
- Recessed orifices for protection from surface abrasion or damage by wrenches
- To be used with Tube Spinners and forward jetted nozzles
- Heat-treated stainless steel

TUBE CLEANING NOZZLES

20,000 PSI (1379 bar)

- For use with Tube Spinners in left-hand medium pressure connections
- Recessed orifices provide additional protection from surface abrasion
- Multiple sizes, standard and custom patterns with flows ranging from 2.7 gpm (10.3 lpm) to 41.8 gpm (158.1 lpm)
- Nozzle Series available: HPF and HPE
