

40K PSI AIR GUN

QUADRABLAST™

Surface cleaning can be a dangerous and time-consuming job, especially when working with pressures of 40,000 psi. Jetstream's QuadraBlast 40K air gun enhances productivity while maintaining limited operator exposure to hazardous conditions due to the lightweight and mechanically-simplified design. For a total solution and best results, Jetstream recommends the QuadraBlast air gun with the MagJet™ X40 and Tumble Box Multi-Mode Valve. This air gun is available with single or dual trigger.

The QuadraBlast air gun provides 40,000 psi surface preparation via a self-propelled rotating nozzle which eliminates the need for a large air compressor. All portions of the gun body remain stationary, so there are fewer moving parts requiring maintenance or replacement, providing longer service life.

KEY FEATURES

- Air – the only source for triggering the flow of water
- Telescopic shoulder stock
- Dump cartridge located away from the gun
- Spring-loaded safety trigger
- Weight: 13 lbs (5.9 kg) single trigger /
16 lbs (7.25 kg) dual trigger
- 32 inch (813 mm) stainless steel lance barrel
- Minimal parts to maintain
- 1/4 inch (6.35 mm) nylon tubing air hose material

INDUSTRY APPLICATIONS

- All surface preparation
- Automotive and aviation
- Concrete and hydro-demolition
- Pulp and paper
- Tank, tote, and vessel cleaning
