

RIG WASHING AND PIT CLEANING SOLUTIONS

Jetstream[®] 
Subsidiary of Federal Signal Corporation

JETSTREAM FOR RIG WASHING

MAXIMIZE EFFICIENCY WITH JETSTREAM

Innovative designs, advanced manufacturing processes, and unique coating technologies create distinct Jetstream features that include easily replaceable valve cartridges and internal components, oil-less water bearings for rotating tools, and easily interchangeable fluid ends for pumps. With simple, yet rugged, construction and color-coded Visual Safety System markings, our products deliver exceptional performance, maximum safety and productivity, and minimal downtime on every job.

JETSTREAM IN ACTION

Jetstream has the most comprehensive products, service, rental, and training in the industry. Whether you are looking to purchase or rent waterblasting equipment, or if you need service and support for your existing equipment, we've got you covered with the most experienced and customer-focused team in the industry. In the United States, our products are serviced by FS Solutions. With 13 convenient locations, FS Solutions provides high-performance parts and accessories, Jetstream rentals, repair and rebuild, and safety training services. Worldwide, our distribution network is there to handle your every need. Jetstream is a subsidiary of Federal Signal Corporation and has the financial strength, backing, and network of distributors around the world to support any customer.

2015 SERIES

1-4 GUN OPERATION

PERFORMANCE SPECIFICATIONS

Maximum Power: 75 hp

3015 SERIES

1-5 GUN OPERATION

PERFORMANCE SPECIFICATIONS

Maximum Power: 200 hp

4215 SERIES

1-10+ GUN OPERATION

PERFORMANCE SPECIFICATIONS

Maximum Power: 325 hp

Flow values represented refer to "theoretical" flow, neglecting inefficiency resulting from compressibility of water and expansion of pressure bearing components.

YOUR PRODUCTIVITY. OUR MISSION.

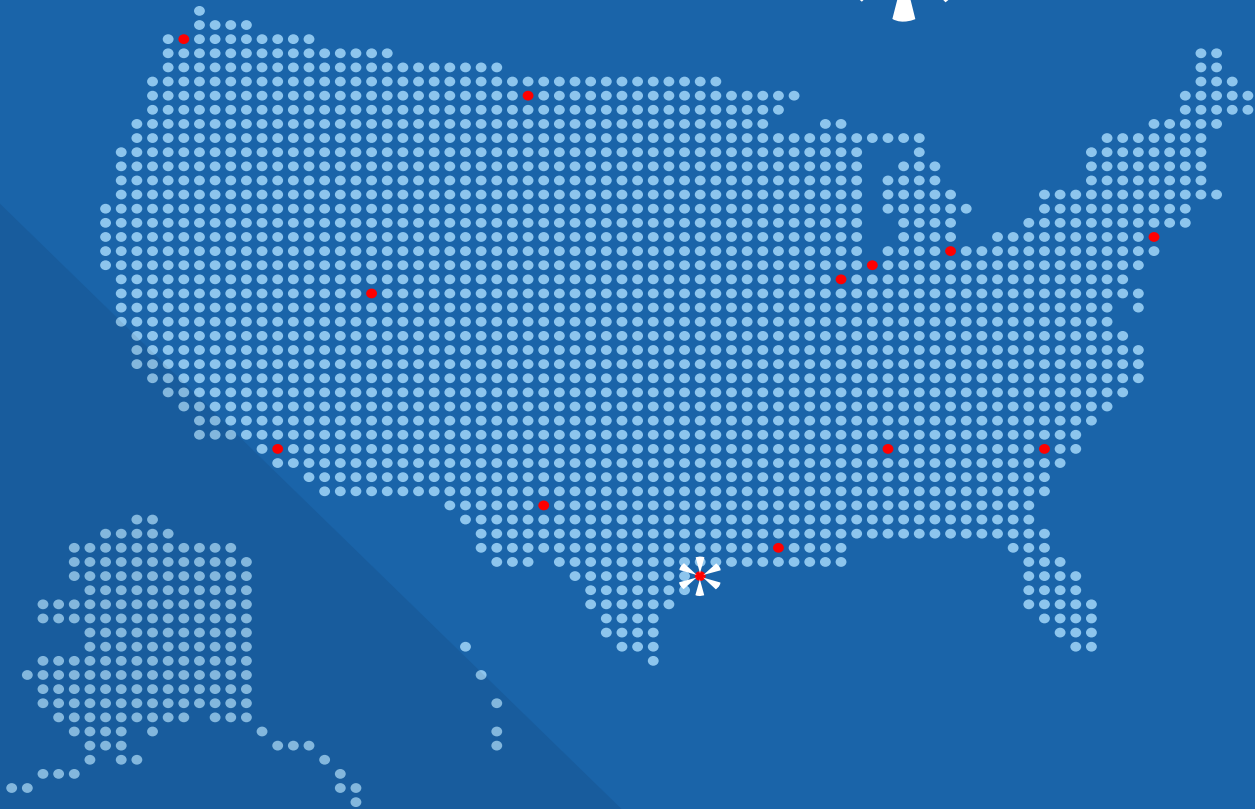

WHY CHOOSE JETSTREAM FOR RIG WASHING

Land-based oil rigs face extreme conditions, with dirt, grease, and drilling fluids accumulating rapidly. Jetstream's high-pressure waterblasting units are specifically designed to handle these challenges, providing deep cleaning for derricks, drill floors, and support equipment. Our systems ensure quick and efficient rig washing, reducing downtime and helping maintain operational efficiency while adhering to industry safety and environmental standards.

Jetstream's high-pressure waterblasting equipment is engineered to tackle the toughest rig washing challenges. Designed for durability and efficiency, our systems remove built-up grease, oil, mud, and contaminants from drilling rigs, offshore platforms, and heavy machinery—ensuring a cleaner, safer, and more efficient work environment.

- **High-Performance Waterblasting** – Delivering pressures up to 13,000 psi for effective removal of tough grime and residues.
- **Innovative UNx™ Pump Technology** – Ensuring superior reliability, quick maintenance, and extended equipment life.
- **Customizable Solutions** – Trailer- and skid-mounted units available with special control options.
- **Minimal Downtime** – Easily replaceable valve cartridges and internal components reduce maintenance time.
- **Enhanced Safety Features** – Color-coded Visual Safety System markings and oil-less water bearings for rotating tools.

Jetstream is committed to delivering the most comprehensive waterblasting solutions for rig washing. Whether you need to purchase, rent, or service equipment, our dedicated team and nationwide Jetstream Rentals service centers ensure that your operations run smoothly.
